wxDownload Fast

il s'agit d'un gestionnaire de telechargement, open source et en francais... sans publicite et sans spyware ce qui est d'habitude une specialité des gestionnaires de download !

wxDownload Fast version 0.6.0

<http://dfast.sourceforge.net/>

Features

Faster downloads (with Segmented/Multi-threaded/Accelerated transfers)

Download resuming (Pause and restart where you stopped)

Download scheduling

Organizes files you have already downloaded

View server messages (HTTP, FTP, file://). No HTTPS support.

Available in multiple languages and easily translated. Now available in Portuguese [Brazil], Spanish, English, German, Russian, Hungarian, Armenian, Indonesian and Dutch

Connection to HTTP/FTP servers which require a password

Calculates the MD5/SHA1 checksum of downloaded files so they can be easily verified

Metalink support

Firefox integration through FlashGot

Can be used as a portable download manager (Windows only)

Can be used over proxy servers(HTTP proxy support)
