Hello Maciej,

If you send me your email in a private message (Messages in blue in the left panel), I will send you the list of softwares with key on my machine (155) and the list found by your software (28).

Hi Tof81,

Please send me to maciej [] keit.co where [] is @, just names I will try to analyze that applications.

You can also put at <http://keit.co/wiki>

Hi sylvie,

rasdnd.exe stands for Run As System Drag And Drop. For example run normal CMD.EXE and type  
whoami

```
300) this.width=300" />
```

Running as system is important when you want retrieve from WiFi.

Best regards

Maciej
