une critique quand même ici

[http://www.snapfiles.com/opinions/aus ... uslogics-disk-defrag.html](http://www.snapfiles.com/opinions/aus...uslogics-disk-defrag.html)

que je cite :

This program caused some problems with run-time files during defrag. On three different defrags, programs using vb6 runtime files and .net framework all crashed out. It must be this program because these errors occur only during defragmenting using this program.
